Southern Edge Arts is bringing the magic of circus to Denmark!

Our brand new term program combines the most-loved elements of our Circus and Aerials classes into playful, non - competitive workshops. Participants will explore trapeze and silks, flips and tricks on the mini trampoline, and the creative world of parkour, flow arts, juggling, and acrobatics — all in a safe and supportive space. This program is perfect for kids of all abilities to build strength, confidence, and connection through movement.
